Welcome to EAS

About the Education Achievement Service for South East Wales

The five local authorities of Blaenau Gwent, Caerphilly, Monmouthshire, Newport and Torfaen have formed an Education Achievement Service (EAS) which is designed to raise education standards in South East Wales.

Standards in schools have got progressively worse and recent secondary school banding information revealed that South East Wales had the highest number of schools in the lower bands. This information highlights the underperformance in schools, and the need for a significant shift in the way that education services are structured to support improvement. It also shows where the greatest need is in the region and where the EAS will need to focus its resources.

The EAS has been created by the five local authorities to raise education standards. By working together as part of an integrated service to support and challenge schools effectively, enhance front line services and make the most of the available resources, progress will take place quickly and effectively.

The service will intensely monitor, support and challenge schools. Benefits of the service include increased capacity to support schools that require challenge, using data more effectively to focus on outcomes, identifying good practice across schools that can be used to improve outcomes, more efficient administration and facilitating professional learning communities.
